## Environmental Solutions Group

A DOVER™ COMPANY

The **Environmental Solutions Group** encompasses three industry-leading companies within Dover Corporation's Industrial Products Group — **Heil Environmental**, **Marathon Equipment Company**, and **Bayne Premium Lift Systems** — to create a premier, fully integrated equipment group serving the solid waste management industry.

Through extensive in-house engineering and manufacturing capabilities, a wide-reaching service network, and industry expertise, ESG is focused on solving customer problems through environmentally responsible products and providing world-class support.

The **Environmental Solutions Group** brings together several well-known product brands respected in the solid waste industry for their quality, durability, reliability, and unmatched service:

- Heil® — the world's leading brand of refuse collection vehicles (RCVs)
- RamJet® — the leading U.S. brand of waste processing compactors
- NEXGEN® — a brand of recycling equipment including horizontal balers and conveyor systems
- Bayne® — the leading U.S. brand of premium hydraulic lift systems

*Dover Corporation is an \$8 billion global producer of innovative equipment, specialty systems, and value-added services for the industrial products, fluid management, engineered systems, and electronic technology markets.*

**Heil Environmental** is the industry leader in specialized truck body manufacturing and product support.

Heil produces the widest variety of refuse collection bodies available, including front loaders, rear loaders, side loaders, and recycling units.

Heil is renowned for after-the-sale support and truck bodies noted for productivity, long life, and ease of maintenance. Fully-automated “robotic arm” collection bodies have been a specialty for more than 20 years and set the standard for productivity and operator safety.

**Marathon Equipment Company** is known throughout the world as a leading manufacturer of on-site waste compaction and recycling systems.

The Marathon RAMJET® brand has been the industry standard for quality and innovation for more than 40 years. This line includes stationary and self-contained compactors, compaction containers, transfer systems, pre-crushers, apartment and high-rise compactors, and a line of environmentally friendly solar-powered compactors.

In addition to waste handling products, Marathon offers a wide range of baling solutions used in recycling and scrap processing operations including precision-built auto-tie, two-ram, and manual-tie horizontal and vertical balers, as well as conveyor and MRF systems under the NEXGEN® brand.

**Bayne Premium Lift Systems** is the leading supplier of cart tippers and carry cans in the waste industry.

Best known for their exclusive Thinline® lift with rack and pinion actuator, Bayne also supplies lift systems for industrial use, including compactor and baler loading systems.

*The Environmental Solutions Group offers the most comprehensive selection of waste management equipment solutions and services to customers in the solid waste management industry.*
